Week # 12: 16–20 November 2026

Subject / الموضوع: Design **Unit Title / عنوان الوحدة: Unit 2 · AI Smart City Design** **Grade 6 (MYP Year 1) / الصف السادس**

Lessons الحصص	Learning targets أهداف التعلم	Assessment tools and strategies التقييم Formativeتكويني/ Summativeختامي / Differentiationالتمايز	Resources and links for Parents و المصادر الروابط المخصصة لأولياء الأمور
Lesson 1 (W12.1) الحصة الأولى **Test My AI Solution D.i–D.ii · 55 min**	I can check my prototype by testing two scenarios against one success criterion. .	Formative draft · Record two test results. Compare them with one B.i criterion. Check · What did your test show? 3.3 Guide processing with explicit steps, chunking, and interactive models. 6.2 Support planning with templates, strategy prompts, and modeled thinking. 8.3 Foster collaboration and community with structured group roles and supports.	Canva prototype on iPad, Criterion B.i success criteria and the Criterion D evaluation sheet.
Lesson 2 (W12.2) الحصة الثانية **Improve My AI Solution D.iii–D.iv · 55 min**	I can evaluate my prototype by suggesting one change and explaining who it could help.	Formal formative · Submit the evaluation sheet at the end for feedback. Check · Who would your change help? 5.1 Provide multiple communication media (text, speech, visuals, models). 5.3 Build fluency with graduated scaffolds and models. 8.4 Provide mastery-oriented feedback that emphasizes growth and improvement.	The same Canva prototype, test results and evaluation sheet. Use the materials shared by the teacher.
Homework الواجبات	Complete the evaluation in class.		Bring a charged iPad. Have your Canva prototype and B.i criteria ready.
Teacher's notes/ Reminders ملاحظات المعلم والتذكير			

Week # 12: 16–20 November 2026 الأسبوع |

Technology Integration دمج التكنولوجيا	Students use their existing Canva prototype on an iPad. They can tap a screen or point to what the prototype shows while a partner acts as the user.
Cross-curricular links الروابط بين المواد الدراسية	Mathematics and Sciences — record and compare two observations. English and Arabic — describe an improvement in plain language. Moral Education and UAE Studies — consider fair access to city services.
External Assessment Integration دمج التقييمات الخارجية	Classroom assessment consists of one unweighted Criterion D formative, with teacher observation and questioning during both lessons.
Wellbeing/ ATL Skills الصحة النفسية/ أساليب التعلم	Critical thinking — compare expected and observed results. Communication — take turns as tester and user. Self-management — use a short checklist. Rehearse responses aloud or use dictation as needed.
Standards المعايير	MYP Year 1 Design · Criterion D Evaluating D.i Outline testing methods. D.ii Outline success against the design specification. D.iii Outline an improvement. D.iv Outline the impact on the target audience.
Inquiry/ TOK Question البحث والاستقصاء أسئلة TOK	How can a fair, smart and ethical AI system solve a real problem in a UAE smart city?
Success Criteria معايير النجاح **(Measurable)**	Lesson 1 — MUST outline one test, record two results and mark one B.i criterion as met, partly met or not yet met. SHOULD explain the decision with one result. COULD choose a scenario that checks access for a different user. Lesson 2 — MUST suggest one change based on the results, name the users and describe one possible effect. SHOULD explain how the change would help them. COULD identify who might still have difficulty and suggest a way to help.
National Identity Domain مجالات الربط بالهوية الوطنية	**Citizenship** Belonging الإنتماء | **Values** Respect الاحترام | **Culture** Arabic Language اللغة العربية
	Area / المجال Fair access to smart city services in Abu Dhabi, Dubai or Masdar City.
	Implementation / التطبيق Identify who can use the prototype easily. Suggest one change that could help more people, such as clearer labels in Arabic and English.
