**Week 12: 16th – 20th November 2026**

Subject: Mathematics (Course 2) Unit Title: Proportional Relationships and Percentages Grade: 7

| Lessons | Learning targets | Assessment tools and strategies Formative/ Summative/ Summative Differentiation | Resources and links for Parents |
|---|---|---|---|
| Lesson 1: Solve Percent Error Problems | Lesson 1: I can calculate percent error using the absolute difference between an estimated and actual value, and explain whether an estimate is reasonable. | 2.1 Clarify vocabulary and symbols using visuals, connections, and supports.<br>8.2 Vary challenge level with differentiated tools, resources, and difficulty. | .**Visual learning links:**<br><br>Lesson 1:<br>Calculating Percent Error |
| Lesson 2: Budget Work (GRASPS only) | Lesson 2: I can create and revise a realistic budget, calculate percentages, and justify financial decisions for my GRASPS task. | | |
| Lesson 3: GRASPS Task | Lesson 3: I can apply proportional reasoning and percentage calculations to solve the GRASPS real-life budgeting challenge. | | |
| Lesson 4: GRASPS Completion and Review | Lesson 4: I can present an organized solution, check accuracy, and explain my choices using appropriate mathematical vocabulary. | | |
| **Teacher's notes/ Reminders** | - Review Percent Error using the class notes and Lesson 4-6 practice materials. Complete pages 207–208, due Date: November 23, 2026.<br>- Use class work periods to complete the budget, verify calculations, and ask for feedback.<br>- Submit your finished GRASPS work through Toddle according to the posted instructions.<br>- **Note: Planning may vary from one section to another depending on each section's pacing and progress through the curriculum.** | | |

| | |
|---|---|
| |  <br>For login or platform access difficulties, please contact your teacher. |

| | |
|---|---|
| **Technology Integration** دمج التكنولوجيا | Toddle: GRASPS resources, instructions and submission.<br>Magma for extra Practice.<br>Microsoft Teams: worksheets, worked examples and revision materials.<br>McGraw Hill: Course 2, Lesson 4-6 Percent Error. |
| **Cross-curricular links** لروابط بين المواد الدراسية | Economics / Business: setting a spending limit, comparing costs and justifying a budget.<br>Financial literacy: percentages, estimates and error in price decisions.<br>ICT: organizing data and presenting budgets clearly. |
| **External Assessment Integration** دمج التقييمات الخارجية | MAP – Common Core Grade 7: proportional reasoning, percentages and numerical problem solving. |
| **Wellbeing/ ATL Skills** ة النفسية/ أساليب التعلم | Thinking: evaluate estimates and check reasonableness of a budget.<br>Communication: explain calculations and justify spending choices.<br>Research: compare realistic costs and identify reliable information.<br>Self-management: plan milestones and meet the GRASPS submission requirements.<br>Social: provide constructive peer feedback. |
| **Standards** المعايير | 7.RP.A.3 – Use proportional relationships to solve multistep ratio and percent problems, including percent error.<br>7.EE.B.3 – Solve multistep real-life and mathematical problems with rational numbers, using tools strategically and checking reasonableness. |
| **Inquiry/ TOK Question** البحث والاستقصاء أسئلة | How can percentages and percent error help us make fair, accurate, and responsible budgeting decisions? |

| | |
|---|---|
| **Success Criteria (Measurable) معايير النجاح** | Lesson 1 – Percent Error (4-6)<br>Must: Calculate absolute error and percent error using the correct formula.<br>Should: Solve contextual percent error problems and check answers.<br>Could: Compare estimates and justify which is more accurate.<br><br>Lesson 2 – Budget Work Period (GRASPS)<br>Must: List budget items and calculate total costs.<br>Should: Apply percentage calculations and stay within the budget.<br>Could: Justify choices and improve the budget with alternatives.<br><br>Lessons 3 and 4 – GRASPS<br>Must: Complete the required task components with clear calculations.<br>Should: Explain mathematical reasoning and check all work.<br>Could: Evaluate alternatives, reflect, and present a persuasive recommendation. |
| **National Identity Domain مجالات الربط بالهوية الوطنية** | Volunteering التطوع Respect الاحترام History التاريخ |
| | المجال Area: Economic Growth – Financial literacy in the UAE: plan a realistic spending budget using AED, percentages and price comparisons.<br>Respect: consider needs, priorities and responsible use of resources. |
| | التطبيق Implementation: Analyze UAE-based purchasing scenarios, compare estimated and actual costs, and justify responsible budgeting choices using percent error. |
