Emirates National Schools

Week 12: 16–20 November 2026

Subject: MYP Design **Unit Title:** AI-Assisted Product Prototyping & Campaign Design – Creating the Solution (Criterion C) Grade: 8

Lessons	Learning targets	Assessment tools and strategies Formative / Differentiation	Resources and links for Parents
Lesson 1 (W12.1): Generating & Refining the AI Visual Prototype	I can generate and refine a high-quality AI visual prototype from my hand-drawn design, using AI tools appropriately.	**FORMATIVE 2 of 2 (Criterion C strands i–iii):** AI Visual Prototype & Iteration Log, teacher feedback (unweighted; feeds into the final Prototype & Campaign summative). **Support:** iteration log with prompt starters. **Challenge:** explain how the AI tool processed my input to produce the output.	Toddle: lesson slides and iteration log template. **Parents:** Ask your child to show their hand-drawn design and the AI visual, and to explain what they changed in the second prompt.
Lesson 2 (W12.2): Developing the Advertisement Script & Campaign Plan (Human + AI Collaboration)	I can develop a structured advertisement script and campaign plan through human-led decisions supported by AI collaboration.	**Ongoing formative evidence:** teacher observation, draft check and peer feedback (unweighted). **Support:** script frame with sentence starters. **Challenge:** explain how the campaign will reach and persuade the target audience.	Toddle: lesson slides and script draft. **Parents:** Ask your child who the advertisement is for, and which parts of the script they wrote themselves.
Homework	Finish any unfinished iteration log entry or script draft.	Self-check the visual and script against the success criteria.	Teacher to confirm homework for Week 12.
Teacher's notes / Reminders	**Bring** your hand-drawn prototype, a charged iPad or laptop, and your Week 11 project plan. AI is a tool: the design decisions must stay your own. Formative 2 of 2 feeds into the final Prototype & Campaign summative.		

Abu Dhabi City Campus Daily/Weekly Planner

Week 12

Technology Integration	AI visual tool approved by the school for the visual prototype; word processor or Toddle for the script and campaign plan. Iteration log and draft uploaded to Toddle.
Cross-curricular links	ICT: using AI tools responsibly. Art & Design: visual prototype. English: writing an advertisement script. Business: campaign reach and audience.
External Assessment Integration	Not applicable to these lessons. Formative 2 of 2 covers Criterion C strands i–iii.
Wellbeing / ATL Skills	ATL: critical thinking (checking AI output), communication (script and campaign). Wellbeing: respectful and safe use of AI; no images of people without permission.
Standards	Lesson 1: MYP Criterion C (ii–iii); CS.CS.1; CS.AP.1 Lesson 2: MYP Criterion C (ii); CS.AP.1
Inquiry / TOK Question	How can I use AI as a tool — while keeping creative control of my design decisions — to prototype and promote a product that solves a real problem in the UAE?
GRASPS Task	**Goal:** prototype and promote a product that solves a UAE problem. **Role:** product designer. **Audience:** classmates and teachers. **Situation:** UAE Future Innovation Showcase. **Product:** sketch, AI visual and ad campaign. **Standards:** Criterion C.
Success Criteria (Measurable)	**Lesson 1:** MUST: Generate an AI visual prototype based on my hand-drawn design. SHOULD: Refine the AI output through at least one further prompt/iteration. COULD: Explain how the AI tool processed my input to produce the output. **Lesson 2:** MUST: Draft a script/plan with a clear message. SHOULD: Show at least one place where AI tools supported (not replaced) my writing. COULD: Explain how the campaign will reach and persuade the target audience.
National Identity Domain	Technology, innovation, artificial intelligence and ethical digital design support the UAE's vision for a secure, innovative, knowledge-based economy; responsible digital citizenship, critical thinking and future-ready skills.
