Abu Dhabi City Campus Daily/Weekly Planner

Week 11: 9-13 November 2026

Subject: Design | Unit Title: Web Design Fundamentals | Grade: 9

Lessons	Learning targets	Assessment tools and strategies Formative / Differentiation	Resources and links for Parents
Lesson 1 Finalising Our Website Design (B.i-B.iv)	I can finalise my website design by checking the specification, comparing ideas and explaining my chosen layout.	**B.i-B.iv GRASP checkpoint:** check 4 measurable success criteria, 2 annotated ideas, a justified final choice, and 3-page wireframes/site map. **Support:** worked example and B checklist. **Challenge:** defend a design trade-off using audience needs.	Existing Criterion B portfolio; original GRASP; wireframes/site map; GitHub-hosted Website Lab. **Parents:** Ask why the chosen design suits its audience.
Lesson 2 Creating Our Website (C.i-C.iii)	I can create my chosen website by following my production plan and demonstrating HTML and navigation skills.	**C.i-C.iii GRASP checkpoint:** 4+ ordered plan steps with time/resources; 3 linked pages; HTML, media or form skills; working-site evidence. **Support:** plan frame, HTML model and links checklist. **Challenge:** debug a broken link and improve accessibility.	Criterion B design and C.i plan; GitHub-hosted Website Lab; HTML starter code; preview and screenshot guide. **Parents:** Ask your child to show how visitors move between pages.
Lesson 3 Presenting Our B+C GRASP (B.i-iv, C.i-iv)	I can demonstrate my finished website and justify how my design decisions and changes meet my audience's needs.	**ONE B+C GRASP submission:** Criterion B.i-iv design evidence + C.i-iv production plan, technical skills, functioning website and justified change log. **Support:** final checklist and sentence frames. **Challenge:** justify a change with peer-test evidence.	Completed website/ZIP; B portfolio; C evidence and change log; B+C assessment rubric. **Parents:** Ask which change made the site better and why.
Homework	Complete any missing B/C evidence; check pages, images, links and the form before submission.	Self-check B.i-iv and C.i-iv against the GRASP rubric; confirm all evidence is saved.	Review the site with a family member and collect one useful comment.
Teacher's notes / Reminders	**SUMMATIVE B+C GRASP - same unit task:** G: create a personal multi-page website; R: web designer; A: chosen target audience; S: communicate clearly using web technologies; P: HTML pages with hyperlinks, multimedia and forms. Submit B.i-iv + C.i-iv together after Lesson 3.		

Week 11

Technology Integration	Use the GitHub-hosted Website Lab on iPads to build and preview HTML pages, links, images and an accessible form. Save/export website files and evidence; upload the B+C GRASP to the approved class platform.
Cross-curricular links	English: clear content for the target audience. Art/Design: visual hierarchy and page layout. Computer Science: HTML, file structure and debugging. Citizenship: responsible media use.
External Assessment Integration	**Integrated summative B+C GRASP:** one submission, with separate judgements for all B.i-iv and C.i-iv strands. No external assessment scheduled.
Wellbeing / ATL Skills	**ATL:** self-management (meet deadlines), communication (explain design), creative/critical thinking (justify choices), and social skills (respectful peer testing). Support via chunked instructions and paired checks.
Standards	**PG 7 / CS.HS.3.2:** solve computational problems through website development and refinement. **MYP Design Year 5:** B.i specification; B.ii feasible ideas; B.iii justified choice; B.iv detailed diagrams; C.i plan; C.ii skills; C.iii functioning solution; C.iv justified changes.
Inquiry / TOK Question	How can I plan, build and justify a multi-page website that communicates information effectively and meets the needs of my chosen audience?
Success Criteria (Measurable)	**Lesson 1 - Criterion B.i-B.iv** **MUST:** 4 measurable specifications, 2 annotated design ideas, 1 justified choice and a 3-page site map/wireframe. **SHOULD:** Link choices and labels to audience, success criteria, page content and navigation. **COULD:** Defend a design trade-off using accessibility or user evidence. **Lesson 2 - Criterion C.i-C.iii** **MUST:** Plan 4+ ordered steps; create 3 linked HTML pages with relevant media/form features. **SHOULD:** Include time/resources/checks and 2 code-and-preview examples; follow the plan. **COULD:** Fix a fault independently and explain an accessibility improvement. **Lesson 3 - B.i-iv + C.i-iv GRASP** **MUST:** Submit B portfolio, C plan, working website, technical evidence and 1 justified change. **SHOULD:** Demonstrate navigation and explain how the final product meets design specifications. **COULD:** Use peer feedback or a real test to defend a change against an alternative.
National Identity Domain	Connect the website project to UAE innovation, digital transformation and youth opportunities. Reinforce privacy, respectful digital citizenship, accurate information, accessibility and inclusive communication.
