Week 10: 2-6 November 2026

Subject: MYP Design | Unit Title: AI Smart City Design | Grade: 6

Lessons	Learning targets	Assessment tools and strategies Formative/ Summative/ Differentiation	Resources and links for Parents
Lesson 1: Planning and Creating My Canva Product Model	I can begin a Canva model of my chosen Smart City product by outlining a build plan and using shapes and labels.	Ongoing checks (C.i-ii): plan, Canva skills and a making screenshot (unweighted). Support: large shapes and short labels. Challenge: explain how a design choice helps the intended user.	Canva: www.canva.com Chosen design; success criteria; planning worksheet. Parents: Ask your child to explain their product parts.
Lesson 2: Completing and Demonstrating My Canva Model	I can complete and demonstrate my three-page visual simulation by following my plan and listing changes to my design and plan.	ONE formal formative (C.i-iv), feedback-only: plan, three Canva pages, two making screenshots, demonstration and change log. Support: example and short labels. Challenge: show an unsure-input response.	Canva pages; completed plan; making screenshots; Criterion C worksheet. Parents: Ask your child to show the input, AI decision and response.
Homework	Complete any unfinished Canva pages and check the labels.	Self-check the model and evidence against the success criteria.	Show the three-page simulation to a family member.
Teacher's notes/ Reminders	Bring a charged iPad and your chosen Criterion B design. Advance the Canva pages manually to demonstrate a visual simulation. Use fictional inputs and show a relevant fairness, privacy or safety feature.		

Week 10

Technology Integration	Canva on iPads: use shapes and labels, duplicate pages and capture making screenshots. Advance three pages manually to simulate the product, input, AI decision and response.
Cross-curricular links	Mathematics: time estimates. Visual Arts: shape and layout. Business: resources. Computer Science: input, process and output.
External Assessment Integration	Not applicable to these lessons.
Wellbeing/ ATL Skills	ATL: planning, creative thinking, communication and organisation. Wellbeing: respectful partner feedback, accessible labels and responsible digital citizenship.
Standards	MYP Design Criterion C: i. Outline a logical plan with time and resources; ii. Demonstrate excellent technical skills; iii. Follow the plan to create a solution that functions as intended; iv. List changes to the chosen design and plan.
Inquiry/ TOK Question	How can the development of a fair, smart and ethical AI system solve a real smart city challenge and support responsible societal development in the UAE?
Success Criteria (Measurable)	Lesson 1 MUST: Outline build steps and use shapes and text to create Page 1 of my chosen product in Canva. SHOULD: Include resources and time, label the product parts and capture a making screenshot. COULD: Explain how a design choice improves access, fairness, privacy or safety. Lesson 2 MUST: Follow my plan to complete and demonstrate three Canva pages, and list real design and plan changes. SHOULD: Show a clear input, represented AI decision and response, supported by making evidence. COULD: Show an unsure-input response and explain an improvement using a success criterion.
National Identity Domain	Explore challenges in Abu Dhabi, Dubai or Masdar City. Connect innovation and digital transformation to a secure, knowledge-based, sustainable UAE economy. Demonstrate fairness, responsible digital citizenship and future-ready skills.
